SCHOOL REPORT.

In compliance with the requirements of the statute we hereby submit our annual report :—

The schools are in good condition, the teachers have labored earnestly for the advancement of the schools, and taken as a whole there has been a good degree of progress made during the year. It has been the aim of the board to secure the best teachers available. We depreciate changing teachers during the year, yet it sometimes happens that it is necessary to do so, but it should be the exception and not the rule. The School Board earnestly requests all our people to co-operate with the board and the teachers in securing to all our scholars the best possible advantages for obtaining such an education as will bring success in whatever calling they may choose. We urge parents to use all their influence with their children that they may be successful in their studies. It would be strange indeed if children were interested if parents were indifferent. It is the desire of the board to give every scholar equal advantages, and we should be very glad to please everybody if that were possible. The schools have kept 29 weeks, excepting No. 8, which has three weeks in addition owing to the Adams' fund. Female teachers in all schools with exception of Nos. 5 and 7. Text books in grammar and arithmetic have been changed. School houses Nos. 2, 6, 8 and 9 have been painted. Water has been provided by the selectmen for No. 8. No. 4, 5, 7 and 9 need water for school use ; we respectfully call your attention to this matter.
